No. I. Population of New South Wales: Annual Estimates

Note. For periods between censuses of population, the population of the State is estimated by adding the subsequent natural increase (the excess of births over deaths) and recorded net migration (the excess of arrivals over departures) to the population ascertained at the previous census. The intercensal estimates are subject to revision when the population is ascertained at the next census, and any discrepancy disclosed by the census is added to the recorded net migration. Population estimates for periods between the 1954 and 1961 censuses have been revised in the light of the final results of the 1961 census.

^{*} Excess of live births over deaths.

Excess of oversea and interstate arrivals over departures. The sign (—) denotes an excess of departures over arrivals.

‡ Figures for June Qr., 1961 and earlier quarters have been adjusted in accordance with final results of the 1961 census. See Note at head of Table 1.

[¶] Final census results.

No. 3. Population and Area of Municipalities and Shires in New South Wales at 30th June, 1962: Grouped in Statistical Divisions

Note. The population estimates shown below have been based on the results of the 1961 census and available measures of population changes since the census. These measures of change are necessarily incomplete. The estimates are therefore approximate, and are subject to revision when the population is ascertained at the next census.

No. 8. Wage and Salary Earners in Civilian Employment in N.S.W.: Government and Private

(Excluding Rural Workers, Females in Private Domestic Service, and Defence Forces)

Notes.

- 1. The estimates of employment given in Tables 8 and 9 are derived from three main sources:-
 - (a) monthly employment in factories, as recorded in the annual factory censuses;

 - (b) monthly returns from governmental authorities; and
 (c) monthly returns supplied by employers for purposes of Commonwealth pay-roll taxation.

These are supplemented by some other direct records of monthly employment (e.g. hospitals) and by estimates of the number of employees outside the scope of the main sources. The numbers of factory employees shown for months subsequent to June, 1961 are estimates which are subject to revision in the light of the results of the factory censuses for 1961-62 and later years.

- 2. Workers in rural industry, females in private domestic service, members of the full-time defence forces at home or abroad, and National Service Trainees in camp are excluded.
- 3. The estimates are designed to measure monthly trends in employment in the defined field. They are compiled on an establishment or enterprise basis and therefore do not cover exactly the same area of industry as the industry tabulations compiled on the occasion of a population census from the schedules provided by individuals.

^{*} Results of survey (conducted jointly with the Department of Labour and National Service) covering slightly more than half of the total factory employment in N.S.W. The results are available about a month earlier than the main employment series shown in Table 9. All figures have been revised since last issue.

^{*} Relates to industrial disputes involving a stoppage of work for a minimum of 10 mandays. The figures include the time lost by employees who worked in establishments where stoppages occurred but were not themselves parties to the disputes; they exclude the time lost, as a result of the disputes, by employees in other establishments.

[†] Includes a small number of mandays lost in the shipping industry.

Note. Tables 12 and 13 are based upon the records of the Commonwealth Meteorologist. The divisions correspond approximately with the statistical divisions shown on the map in frontispiece of the Official Year Book of New South Wales, each division being subdivided into two sectors indicated by the letters N, S, E, or W according as they constitute the northern, southern, eastern, or western portion of the division concerned. Normal Rainfall is based on a period ended 1929.

⁽a) Excludes Albury (regarded as a Victorian selling centre). Weighted average, year ended June.
(b) Average return f.o.r. country rail siding, allowing for cost of bags and including governmental assistance to wheatgrowers. Pool season, generally year ended October.
(c) Basic selling prices of Australian Wheat Board for f.a.q. bulk wheat, f.o.b. Sydney. For some destinations, where other exporting countries have a geographical freight advantage, the selling price is below this basic price. Annual quotations are the average of the twelve monthly prices, year ended July.
(d) Price charged by Australian Wheat Board for bulk wheat for flour for local consumption, f.o.r. Sydney. Annual quotations are the average of the twelve monthly prices, year ended November.
(e) Weighted average price (per pound of commercial butter) paid for cream supplied to N.S.W. factories, inclusive of Government subsidy, year ended June.
(f) Weighted average price for choicest butter, f.o.b. Australia. Annual quotations are for year ended June.
(g) Annual quotations are the average of the twelve monthly prices, year ended June.
(h) International Wheat Agreement.
(n) Nominal.

^{*} Includes building materials, road materials, and gravels. † Value shown includes bounty. † Bullion, alluvial, retorted gold, etc. Value shown includes subsidy. ¶ Includes sea shells.

^{*} The net value of production is the gross value at principal markets (including subsidies paid to producers) less the estimated costs of marketing and certain costs of production. For the rural industries, the production costs deducted are for seed, fertilizers, water for irrigation, sprays and dips, and stock feed.
† Excludes profits realised under the war-time plan for disposal of the 1939-40 to 1945-46 wool clips.
Amounts distributed in years covered by the table were: £9,423,000 in 1951-52, £6,027,000 in 1952-53, £6,241,000 in 1953-54, £4,891,000 in 1954-55, £203,400 in 1956-57, £60,500 in 1957-58, and £46,300 in 1958-59.
‡ Calendar years 1951 to 1961.

^{*} The value added to raw materials by the process of manufacture. It is calculated by deducting from the value of output (which is, in general, the value of goods manufactured) the value of materials and of fuel and power used. Value of production comprises salaries and wages, drawings by working proprietors, depreciation, insurances, selling expenses and other overheads, taxation, and profit.

* With active constituents of soap only or mixtures of soap and alkali.
† All synthetic detergents, wetting agents, and mixtures of soap and/or alkali and synthetic detergent.
† Starting, lighting, and ignition.
† Includes wire stretchers and box spring mattresses.

BUILDING

Notes:—

1. The value of building jobs represents the estimated cost of the whole job when completed, excluding the value of the land on which the job is carried out.

2. Building is classified as government or private according to ownership.

3. The value of building jobs approved is, for private building, the value of permits issued by local government authorities to build in that part of the State (covering all municipalities and the larger residential areas within shires) subject to building control by local authorities; and for government building, the value of contracts let or work commenced and day labour projects authorised by governmental authorities.

4. The number of houses and flats approved is, for private building, the number covered by local authority permits to build; and for government building, the number covered by contracts let and day labour jobs authorised by governmental authorities.

5. Some building in rural areas is excluded.

No. 66. Instalment Credit for Retail Sales, N.S.W.*

Note. This statistical series covers credit schemes which involve repayment by regular predetermined instalments and which relate primarily to the financing of retail sales of goods. It embraces hire purchase, time-payment, budget account, and personal loan schemes, but does not cover lay-bys, credit accounts not payable by regular predetermined instalments, the financing of sales of land and buildings, property improvements, and services (e.g. repair work and travel), and rental and leasing schemes. Many figures have been revised since last issue.

* Averages of weekly figures.

† Excludes inter-bank deposits (mainly deposits of savings banks with trading banks) and Government deposits.

† Net gold and foreign exchange holdings by official and banking institutions. June figures relate to end of month: figures for other months are for the last Wednesday in the month. June figures relate to end of

No. 72. Index of Prices of Shares on Sydney Stock Exchange

This index relates to ordinary shares of the principal companies (excluding banking companies) listed on the Sydney Stock Exchange whose business in New South Wales is extensive.

The prices of individual shares are unweighted, and each group average is the mean of the average monthly prices per £1 of paid-up capital. The aggregate index is the average of all the shares included in the groups with the addition of 34 miscellaneous shares. There is no base period as the index represents the ratio per cent. of the average prices of ordinary shares to their par values, adjustment being made where capital is written off or bonus shares are issued.

* Includes 34 miscellaneous companies.

No. 73. New Money Capital Raised by Australian Companies

These statistics relate to new capital raised by companies incorporated in Australia and the Australian Territories, distinguishing between companies listed on the Australian Stock Exchanges (listed companies) and all other companies (unlisted companies). New money raised is the net amount of cash transferred from the investing public to the companies, and consists of the total amount of cash received by the companies less the amounts not involving a transfer of funds from the investing public (cash subscribed by associated companies, and other cash subscriptions used to redeem shares, debentures, etc. or to purchase existing shares, debentures, etc. in other companies). Borrowings by bank overdraft and temporary advances, deposits accepted by banks, insurance and pastoral companies, and building societies, and loans to authorised dealers in the short-term money market are excluded from the statistics. The series has been revised since last issue.

* Includes Australian Capital Territory.

Allowances are payable for the wives and the dependent children under 16 years of age of those pensioners who are invalids: since October 1961, the maximum weekly amounts have been 47s. 6d. for wife, 15s. for the first child, and 10s. for each other child. Since October, 1958, supplementary assistance of 10s, per week has been available to single pensioners and to married couples where one is a pensioner and the other is not receiving a wife's allowance; only those who pay rent and are considered to be entirely dependent on their pension are eligible for this assistance. Pensioners in benevolent asylums receive allowance instead of pension; since October, 1961, the maximum rate has been 37s. 6d. per week.

Includes (a) payments to benevolent asylums and hospitals for maintenance of pensioners (£94,000 in 1961-62 and (b) payments for wives and children of pensioners who are invalids.

^{*} Includes Australian Capital Territory.

- Notes. 1. From October, 1958, widow pensioners who pay rent and are considered to be entirely dependent on their pension may also receive supplementary assistance of 10s. per week.
 - 2. The State of New South Wales supplements the pensions by allowances for children; 1,022 widows were receiving allowances at 30th June, 1962 and the amount paid in the year ended 30th June, 1962 was £49,229.

No. 90. Unemployment, Sickness, and Special Benefits in New South Wales*

Note. These benefits, commenced on 1st July, 1945, are payable (subject to means test) to persons aged 16 to 65 years (females 60) whose normal earnings have been interrupted through unemployment, sickness or temporary incapacity. Since 1st March, 1962, the maximum weekly rate of benefit for unmarried minors has been 35s. if under age 18 years, or 47s. 6d. if over 18 years; and for other persons, 82s. 6d., plus 60s. for a dependent wife and 15s. for each dependent child.

Note. Comparisons as to trend should be made for complete years or corresponding quarters. The quarters are affected by seasonal influences.

No. 98. Weighted Average Minimum Weekly Wage Rates, New South Wales

- Notes. I. The indexes of minimum wage rates embrace a representative range of occupations and are based on the occupation and industry structures in 1954. The wage rates used in the indexes are the rates payable for a full week's work (excluding overtime), as prescribed in the relevant industrial awards, determinations, and agreements. The rural industries are excluded from the indexes.
 - 2. The money amounts shown should not be regarded as actual current averages, but as an index of changes expressed in money terms.

For State Awards, the amounts shown to February, 1959, represent the basic wage together with so much of any margin and any further amount necessary to make the minimum wage payable equivalent to 75 per cent. of the basic wage for males. Following the increase in the basic wage to the 75 per cent. equivalent, the amount shown from February, 1959, is the basic wage exclusive of any margin. This change was applied in State Awards from different dates, beginning in March, 1959.

Quarterly adjustments for movements in retail prices were discontinued in September, 1953, in both Commonwealth and State Awards. They were restored in State Awards in November, 1955.

No. 100. Consumer Price Index

Notes:-

I. For current statistical purposes, the Consumer Price Index replaces both the "C" Series Retail Price Index (first compiled in 1921) and the Interim Retail Price Index (constructed as a transitional index in

1954).

2. The Consumer Price Index measures variations in prices of commodities and services as affecting a high proportion of the expenditure of wage earner households. Changes in the pattern of the expenditure since 1950 have been reflected in the Index by the introduction of additional items and altered weighting patterns. The new Index is more comprehensive than the earlier indexes.

Base of each Index: 1952-53 = 100.0

^{*} Weighted average for six Australian capital cities.

No. 101. Wholesale Price (Basic Materials and Foodstuffs) Index

Commodities are priced in their primary or basic form wherever possible. Prices are drawn mainly from Melbourne sources. Apart from locally produced building materials, and one or two minor commodities, the price movements may be taken as representative of variations in wholesale prices of basic materials in most Australian markers.

* Represents only such imported commodities as are included in the Wholesale Price Index. This index does not measure changes in import prices generally.

No. 102. Export Price Index, Australia

Notes:-

- 1. The Export Price Index shown below replaces the Index previously published. The new Index is compiled as a weighted average of the relative price movements of 29 commodities, the weights being based on the exports (valued at 1959-60 prices) of the commodities in the five years 1956-57 to 1960-61. In these years, the selected commodities accounted for about 83 per cent. of the total value of Australian exports.
- 2. A comparable series of index numbers has been compiled by linking, at the year 1959-60, the "All Groups" Index in the new and discontinued Indexes. The index numbers (Base: 1959-60=100) for the years 1954-55 to 1958-59 are 114, 105, 117, 102, and 90, respectively.

Metropolis

In Tables 103, 105, and 106, the group "Metropolis" differs from the Metropolis as defined for general statistical purposes in that it includes the whole of Blacktown and Liverpool Municipalities and Baulkham Hills and Hornsby Shires, only portions of which are included in the statistical Metropolis.

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS NEW SOUTH WALES OFFICE

PUBLICATIONS

The publications listed below are obtainable from the Deputy Commonwealth Statistician, The Commonwealth Centre, Elizabeth Street (near Hunter Street), Sydney. In addition to these publications, the Deputy Commonwealth Statistician issues a number of mimeographed publications, particulars of which may be obtained on application.

In the Official Year Book of New South Wales, the statistics of the State are explained and analysed and information is given about their legislative and administrative background. The Year Book is prepared in Parts (which may bear different numbers from year to year), each of which is issued separately as printed; the Volume is issued when all the Parts have appeared.
